

I'm inventor, builder and CEO of CITY DRIVE TECHNOLOGY society. I have 5 industrial patents of innovative modern and fast products for small transportation in town and for practice sport in safety.

I'm also a member of the inventors association "EUROPE FRANCE INVENTEURS"

The offer of CITY DRIVE TECHNOLOGY is divided in 3 parts:

1. Urban Mobility:
 - CityDrive: Electric wheel for inline skating – speeddrive-monaco.
 - FreeDrive: Electric car – freedrive-monaco.com
 - HandyDrive: Electric wheelchair – handy-drive-monaco.com
 - SpeedDrive: Bitumen Electric Surf – citydrive-monaco.com

2. 2. Sports Recovery and Muscle Strengthening:
 - AquaDrive: Aquabike in stainless steel

3. 3. Sports Events and Extreme Sports:
 - Route 66
 - Tour of Corsica
 - Cycleroads European

With my inventions, I have won several awards in international fairs:

- METHA EUROPE 2014 competition prize
- Salon Jaulienes Inventor (Graduate)
- Salon Geneva Inventor (Medalist)
- Salon Mougins Inventor (Graduate)

Company CITY DRIVE TECHNOLOGY has training and workshop offices based in :

- The Albi Carmaux Mines School
- Study office in Toulouse
- Pole Office in Sophia-Antipolis
- Development and testing office in Monaco

All my inventions are in working condition, I collaborate with the school of Mines of Albi Carmaux for homologation. Videos are available on www.city-drive-technology.com, but also on Youtube with Michel CICOVIC's "Speed-Drive", "Handy-Drive" and "City-Drive" keywords.

I am looking for partners for commercial development and manufacture of electric inventions which benefit from a unique and innovative concept.

Partners will design and develop these products at their own cost.

They will be granted a license, an exclusive international manufacturing and distribution license on the basis of a royalty between 5% and 10% concluded at the time of signing contract. The inventor will provide assistance for development, patents and prototypes.
